

4G Pre-Ethernet Service

Fast, reliable, day-one connectivity from anywhere

Vaioni's 4G Pre-Ethernet service enables businesses to get fast connectivity instantly. Utilise all available carriers to act as your primary internet connection with simple, plug-and-play SIM card functionality.

Ideal for rural locations, businesses on-the-move, a failover safeguard, or as an interim solution whilst your fixed line services are provisioned, Vaioni's 4G Pre-Ethernet service promises instant, no-fuss connectivity.

Key Features:

- Multi-network SIM cards
- Rapid delivery
- Reliable connectivity regardless of location
- Fixed-line alternative
- Plug and play functionality
- Dual SIM redundancy
- Adapt and repurpose
- Portable connection

Benefits:

Agnostic SIM cards

Our SIMs work with all major carriers and will create a connection with whichever network provides the strongest signal. This means you're always getting the fastest and most reliable connection possible.

Rapid deliver and installation

Businesses depend on connectivity and often don't want a fixed-line lead-time measured in weeks and months. Simply insert your Vaioni 4G SIM into your router and enjoy instant connectivity and voice services.

Anywhere access

Vaioni's 4G service provides connectivity in locations which struggle to find fixed-line services or for those on-the-move or in pop-up locations who require an instant and reliable connection.

Repurpose for resiliency

Your 4G connection can be repurposed as a failover connection for added resiliency once your Ethernet connection is live or simply moved to a new location.

“

We have had excellent service using Vaioni. They've always been really helpful and I cannot praise them highly enough.

”

“

We've been with Vaioni for a few years now and it's been a great service all round, from the quality of the response from our Account Manager and support staff to the line itself. I can't remember the last time I had to log an issue... I couldn't fault Vaioni.

”

“

Efficient service. Nice team to work with, great to deal with, and would definitely recommend.

”

Why Vaioni?

We're connectivity experts; we have the awards and experience to prove it. Trusted by thousands of UK businesses, we've been providing vital connectivity services for over a decade, and there's no challenge too great or small that we can't tackle head-on.

Our connectivity proposition is founded on reliability and resilience. We own and operate our own high-performance, highly available network with 100% uptime guarantee; we're really proud of our uptime track record of over 3 years (our customers love it too).

As all of our products run over our network, you can be assured of the highest performance and availability of your entire critical business infrastructure. Our network is supported by the highly-skilled engineers that built and maintain it, so you can have complete confidence that you're in super-safe hands.

We're a small, friendly and responsive team with the freedom to be agile to meet our customers' needs. We guarantee we'll deliver exactly what your business needs to ensure you can thrive.
