

Vaioni Wide Area Network (WAN)

Highly-scalable, MPLS-based Wide Area Networking

Multi-site businesses can suffer greatly when using separate connections for each different location. Disparaged systems, isolated security, disjointed costs, and not-fit-for-purpose infrastructure all stifles growth and innovation.

Vaioni's highly-scalable, MPLS-based Wide Area Network [WAN] will connect all your sites into one high-performing, secure, reliable, and cost-effective network easily utilised by your office-based and remote workforce.

Key Features:

- Access speeds up to 10GB
- Highly scalable
- Wide choice of carriers and access technology
- Built on Vaioni's carrier-class network
- Backup circuits for all fibre connections
- VPN access
- Flexible addressing
- Managed hardware options available
- Full pre-sale consultancy
- Fully managed implementation
- 24/7/365 support

Benefits:

Speed and scaling

With speeds up to 10Gbps available, you can connect new sites to your infrastructure quickly and expand your connectivity as your business grows.

Infrastructure you can build upon

Vaioni's WAN is fully capable of supporting real-time applications such as VoIP, video, and cloud applications allowing you to confidently introduce Software-as-a-Service (SaaS) applications.

Boost collaboration

With a choice of 6 access technologies to suit all needs, you can allow roaming users to access centralised data and applications through a secure link for added flexibility and collaboration.

Built on the quality

Vaioni's WAN solution is built on our own Vaioni Ethernet Network, cutting out the middle-man. We utilise every major carrier and deliver an industry beating 99.995% uptime to every corner of the UK. This ensures we can

bespoke our service to meet every need and deliver additional security, flexibility and reliability.

Extraordinary support

We're connectivity experts, and we'll share that expertise from the beginning. Expect full pre-sale consultancy and project management to ensure the right architecture design and implementation, alongside 24/7/365 support from our fully-trained service team.

“We've been with Vaioni for a few years now and it's been a great service all round, from the quality of the support staff to the connection itself. I can't remember the last time I had an issue... I couldn't fault Vaioni.

”

Why Vaioni?

We're connectivity experts; we have the awards and experience to prove it. Trusted by thousands of UK businesses, we've been providing vital connectivity services for over a decade, and there's no challenge too great or small that we can't tackle head-on.

Our connectivity proposition is founded on reliability and resilience. We own and operate our own high-performance, highly available network with 100% uptime guarantee; we're really proud of our uptime track record of over 3 years (our customers love it too).

As all of our products run over our network, you can be assured of the highest performance and availability of your entire critical business infrastructure. Our network is supported by the highly-skilled engineers that built and maintain it, so you can have complete confidence that you're in super-safe hands.

We're a small, friendly and responsive team with the freedom to be agile to meet our customers' needs. We guarantee we'll deliver exactly what your business needs to ensure you can thrive.
